## EDUCATION

---

### Carnegie Mellon University

2025 - 2026

*Master of Human-Computer Interaction (MHCI) - Pittsburgh, PA*

GPA: 4.0

### Indian Institute of Technology (IIT) Guwahati

2017 - 2021

*Bachelor of Design (BDes), All India Rank 29, UCEED*

GPA: 9.13/10

## PUBLICATIONS & WORKSHOP PAPERS

---

K. Kadoma, **P. Shrivastava**, M. Naaman. "Lost in Transcription." Proceedings of CHI 2026.

**P Shrivastava**, A. Reddy, S. Foubert, P. Lehner, A. Singh. "A Prescriptive Framework for Task-level Human-AI Complementarity." Human-AI Complementarity Workshop, 2026. Accepted (poster).

## RESEARCH EXPERIENCE

---

### Research Assistant - AI Institute for Societal Decision Making, CMU

June 2026 – Ongoing

*Advisors: Prof. Aarti Singh (Machine Learning Dept.) and Samsara Foubert*

- Developing a framework for how individuals should decide whether and how to use AI on a specific task, grounded in expected-utility modeling.

### Researcher Assistant - Prof. Maarten Sap

June 2026 – Ongoing

*Collaborating with a PhD student in Prof. Maarten Sap's group*

- [Add one line: what the project studies and your specific contribution — e.g., study design, annotation, analysis, or evaluation of manipulation tactics in chatbot interactions.]

### CORDA Research Fellow - Open Democracy

April 2026 – July 2026

- Developed an encyclopedia of 4 reranking algorithms measured through LLM simulations across a standard 'nutrition label' comprising measurements from EU DSA Articles 34(1)(a) to (d) harms to bridge the gap between academic research and policy.

## HONORS, AWARDS & FELLOWSHIPS

---

- JN Tata Endowment Scholarship.
- CORDA Research Fellowship, Open Democracy.
- First Place, US AI Policy Hackathon - proposal on regulating deepfakes in elections.

## LEADERSHIP & SERVICE

---

- Executive Board, CMU AI Safety Initiative (CASI); co-lead of an AI governance reading group.
- Organizer, CMU AI Policy Hackathon (tracks: agentic AI fraud, corporate power concentration, creator rights, surveillance).
- Founding member, User Research India.

## SELECTED INDUSTRY RESEARCH EXPERIENCE

---

*Applied, mixed-methods UX research relevant to empirical study design and human-AI interaction.*

- UX Researcher (contract), Microsoft - Copilot in Outlook; mobile web (mWeb) retention.
- UX Researcher, Razorpay - merchant onboarding and value research; e.g., an onboarding usability study that raised conversion 63% and cut support tickets 50% (n=11, mixed methods).
- UX Researcher, Meesho - multilingual research with emerging internet users across nine Indian languages.
